

Archer Electrical

CASE STUDY/RETAIL/ 073 DEC 2017

CLIENT: DEVIALET  
LOCATION: Canary Wharf  
DESCRIPTION: Full Electrical Installation  
DATE: December 2017

We work extensively with Interclass Construction on numerous fit-out projects and we were pleased to be awarded another contract, this time for global sound company Devialet

This new store in Canary Wharf is the latest step in the company's UK expansion plans, which will also see us completing the electrical installation for Devialet's new store in Bicester Village. This adds to their presence in The Royal Exchange, Saint Pancras station, Westfield London and Harrods.

Founded in 2007, and headquartered in Paris, Devialet has become an international leader for high-end sound technology. Devialet's ambition starts with its innovative products and extends through to the design of the stores in their mission to bring the best sound in the world to as many people as possible. Devialet is also launching a demonstration room initiative designed to showcase the quality of Devialet sound in a range of locations.

Testimonial:  
What the client said:

*“Devialet opened this morning as planned, A big thank you and well done to all involved with this demanding project..”*

*Dave Swinburne  
Contracts Manager – Interclass Construction*
