

Archer Electrical

CASE STUDY/HEALTHCARE/ 041

CLIENT: LLOYDSPHARMACY
 LOCATION: UK NATIONWIDE
 DESCRIPTION: Full Electrical Installations
 DATE: Continual

We are currently nominated electrical contractors for Lloyds pharmacy, the largest community pharmacy operator in the UK. It operates over 1,700 pharmacies, located primarily within local communities and health centres, Lloyds pharmacy are currently the 25th biggest UK retailer with a round £1.8 billion turnover, being a wholly owned subsidiary of Celesio AG, the largest pharmaceutical wholesaler in Europe.

In our longstanding association with Lloyds pharmacy we have undertaken electrical installations on full re-fits, re-fresh projects, new acquisitions, flagship and new concept stores nationwide, providing a full electrical service which includes fire alarms, emergency lighting, voice and data systems, additionally we act as agents for Lloyds pharmacy in engaging electricity service providers for their new and upgraded incoming mains power requirements, including metering arrangements, throughout the Lloyds pharmacy estate.

It's been a privilege for us to having been part of innovative new concept stores over the years when piloting Model Pharmacy, One Vision Pharmacy, Lloyds pharmacy Health Village and now the very latest European Pharmacy Network concept, assisting with electrical design, specifications, and lighting schemes.

Testimonial:
 What the client said:

"Archer Electrical are one of our preferred contractors and continue to exceed all expectations. We have always found them to be an efficient, well organised Company who turn out good quality work on time".
