

Archer Electrical

CASE STUDY/HEALTHCARE/ 037 NOV 12

CLIENT: LLOYDSPHARMACY
 LOCATION: Bicester
 DESCRIPTION: Full Electrical Installation
 DATE: November 2012

We are proud to have such a longstanding association with Lloyds pharmacy having undertaken electrical installations on re-fits, new acquisitions, flagship and new concept stores ever since their early years as Lloyds Chemist when our working relationship began 20 years ago.

This new European Pharmacy Network concept store creates a powerful and inspiring destination for people's health related needs, providing an in-store experience that encourages people to buy solutions to their health problems by inviting and inspiring them to take time to explore their health further.

Lloyds pharmacy were delighted with the final outcome and plan an initial further ten new concept stores in the New Year.

Testimonial:
 What the client said:

"May we take this opportunity to thank you and your team for the excellent effort you have all made...we look forward to working with you again on the future European Network Pharmacy stores."

Martin Worrall
 Project Manager Lloyds pharmacy
