

Archer Electrical

CASE STUDY/RETAIL/ 001 OCT 09

CLIENT: PRADA  
 LOCATION: Bicester Shopping Village  
 DESCRIPTION: Full Electrical Installation  
 DATE: October 2009

Following our successful completion of Mui Mui in Sloane Square London we were invited to carry out the Electrical Installation for Mui Mui's partner brand Prada for their venture into the chic outlet shopping Bicester village. The project was completed in four weeks to a standard in keeping with Prada's concept of uncompromised quality.

Sophisticated and trendsetting, Prada's inspiring concept of uncompromised quality and constant innovation has endured for nearly a hundred years.

Prada's history dates back to 1913, when Mario Prada, Miuccia Prada's grandfather, opened a shop of luxury goods in the Galleria Vittorio Emanuele II, an architectural landmark in the heart of Milan. In 1919, Prada was appointed Official Supplier to the Italian Royal Family.

Testimonial:  
 What the client said:

"Just a note to say thank you for all your efforts at Prada...The handover to Powell's went very well and as you all know Archers received no snags!...."
