

Archer Electrical

CASE STUDY/RETAIL/ 011 SEPT 2012

CLIENT: SCHUH KIDS
 LOCATION: Liverpool One
 DESCRIPTION: Full Electrical Installation
 DATE: September 2012

Archer Electrical have developed a successful working relationship with footwear retailer Schuh having now completed numerous electrical installations for their roll-out of stores nationwide.

Liverpool one kids was the third new Kids concept store to be opened being an expansion of the 'Schuh' brand and is testament to the performance of their existing stores. The new 'schuh kids' store concept is home to some of the coolest branded kids' footwear in the market, targeted at boys and girls from baby to pre-teenagers.

This was the largest project we had undertaken for Schuh to date, we worked this time with Brydol Shopfitters to complete the fitting out of two, two storey retail units within Liverpool One shopping centre to create 'Schuh' with 'Schuh Kids' sitting happily alongside.

Testimonial:
 What the client said:

"Archer Electrical Ltd has now worked for Brydol Shopfitting for a number of years. They are reliable, conscientious and their work is always to a very high standard."

Mark Burton
 Brydol Shopfitting
