

Archer Electrical

CASE STUDY/RETAIL/ 092 FEB 2020

CLIENT: SUNGLASS HUT  
LOCATION: East Midlands Designer Outlet  
DESCRIPTION: Full Electrical Installation  
DATE: February 2020

We kick off our first 2020 project for international interior fit out company Drycon with this new install for Sunglass Hut.

We have partnered this high end specialist retail fit out company on many prestigious projects successfully undertaking the electrical installations alongside Drycon for high street retailers such as Swarovski, Ray Ban, Vans, Fossil, Laderach, The North Face, David Clulow and Sunglass Hut.

This Sunglass Hut at the McArthurGlen East Midlands Designer Outlet is one of several projects completed for this global eyewear company and following the completion of projects at Birmingham & Glasgow Airports recently we will now move onto fit outs in Edinburgh and Brent Cross.

There is no better recommendation than repeat business and we continue to build lasting business relationships which are built upon our 'can do' attitude, providing one stop electrical solution for our clients.

*"Archers continue to be our preferred Electrical Contractor having undertaken many projects for Drycon they provide an excellent service and have never let us down"*

Michael Blanchfield  
Director - Drycon
